

Risk Health Check

Available to Ansvar Insurance Customers

Risk Management Frameworks should be reviewed at least annually.

Boards should consider these 4 key questions as part of this annual review.

Take our Risk Health Check and receive independent advice and support on your organisation's risk management approach.

1 What is it?

Ansvar's Risk Health Check provides an independent assessment of key aspects of your risk management framework conducted by a senior risk consultant. It identifies where risk management is working effectively for your organisation as well as providing feedback and guidance on improvement opportunities.

2 What are the steps?

- Step 1:** Your broker will connect you with the Ansvar Risk Team.
- Step 2:** Our Risk Team will contact you and take you through the process.
- Step 3:** A senior risk consultant will review key documents, meet with agreed members of your organisation and assess your framework's progress.
- Step 4:** Receive feedback on the following four key aspects of your risk management framework.

3 What will it review?

Risk Governance

- Risk Policy and Strategy
- Risk governance, structures and processes
- Board oversight
- Risk culture

High Risk Areas

- Insights on high prevalence, high impact risks
- Adequacy of your risk process
- Clinical and Safeguarding risk management

Risk Improvement

- Risk maturity progress
- Areas of strength
- Key gaps for action
 - Risk training
 - Advice and tools to support improvement

Risk Communication

- Risk Reporting
- Incident Management Process and Systems
- Risk analysis, trending and feedback

Key questions to ask

Have you reviewed your risks and identified emerging risks?

Do you have effective risk management tools?

Do you have an improvement plan for risk management?

Have you reviewed your risk management framework in the last 12 months?

Senior Risk Consultants

We recruit experts from industries that understand our sectors and can more easily relate valuable risk knowledge and advice to our clients and brokers.
